

You're Invited!

Innovations in Modern Dentistry!

Part 1

Johanna Blaisdell
vVardis

Hydroxyapatite Formation via Guided Enamel Repair?

A new chapter in dentistry is here! Join Johanna for an engaging educational session on how Curodont Repair Fluoride can reverse early-stage caries - restoring lost minerals naturally using the minerals already present in your saliva.

Part 2

Bridget Marron
Master Dental
Technician

Communication Tools for Dental Implant Success

An understanding of the latest developments in implant dentistry, case presentations and strategies will be discussed. Clinical and administrative techniques that can be immediately applied to your daily practice will also be reviewed.

At the completion of this course, participants will be able to:

- Understand the many benefits of dental implant treatment.
- Recognize the latest advancements within implant dentistry.
- Successfully communicate the value of implant therapy to patients
